

Band Room Cleaning Roster

The cleaning of the band room went well last year so we will continue to keep the roster going, two people coming in every two weeks to do the cleaning.

Cleaning consists of:

Vacuuming and dusting, cleaning the toilets and basins, a general wipe down and tidy of the kitchen area. Also the persons rostered will be required to wash the cups used during the half-time break after band practice.

Also require, during your 2 week period, to **bring milk for haltime break** for the subsequent Monday's (and any Thursday practices that might be called for).

The cleaning may be done any time during the two-week rostered period. A band room key can be picked up from a key holder listed below, or be given use of the spare set over your 2 week period.

If there is any cleaning material required, please purchase them and then seek reimbursement from the Treasurer.

If you are unable to make your allocated week, it is your responsibility to arrange a swap with someone else.

We all enjoy the facilities of the band room so let's work together to keep it a place to be proud of and can welcome a guest at any time without feeling embarrassed at the general state of the place!
